Professional Summary

Flutter and Frontend Developer with 1+ year of experience building cross-platform (Web / Android / iOS) applications using Flutter, Dart, and React.js. Delivered enterprise procurement and multi-tenant SaaS platforms by applying Clean Architecture, Riverpod state management, and REST API integration within modular monorepos.

Work Experience

Rigved Infotech Pvt. Ltd. | *Navi Mumbai, Maharashtra* July, 2026 - Present
Associate Consultant (Frontend Developer)

- Built and maintained UVP Pragati, an enterprise vendor-lifecycle and procurement platform, as a cross-platform (Web / Android / iOS) Flutter application structured as a Melos monorepo of 9 modular packages spanning 48+ feature modules and 3,500+ Dart files, applying Clean Architecture (data / domain / presentation) with Riverpod and GoRouter.
- Developed the shared core infrastructure layer: a Dio-based REST API client with custom interceptors for auth-token injection, request retry with exponential backoff, gateway-error handling, and centralized logging, plus a typed error-mapping pipeline reused across every feature module.
- Delivered end-to-end vendor onboarding, LOI (Letter of Intent) negotiation, e-Signature, and agreement-finalization workflows with multi-level approval chains, role-based access control (RBAC) route guards, SSO authentication, and secure token storage.
- Engineered a reusable design system and multi-locale internationalization (i18n / l10n), built responsive dashboard, listing, and multi-vendor comparison interfaces for mobile and desktop from a single codebase, and configured 4 build environments (dev / staging / prod) with lint and static-analysis checks in CI.

Kstars Technology LLP | *Navi Mumbai, Maharashtra* August, 2025 - June 2026
Fullstack Developer

- Engineered Elite Pro (Eazelite 2.0), a multi-tenant school management system in React.js with Redux Toolkit and Vite, delivering 10+ modules (Hostel, Transport, Fee, Academic) with granular RBAC and dual-portal (Admin / Student) routing logic.
- Architected a centralized API service layer using a custom Axios wrapper with multi-tenant header injection, automated token-refresh handling, and site-specific configuration management.
- Designed a generic, high-performance MasterTable component supporting server-side pagination, multi-column filtering, and advanced sorting, reused across 50+ screens to eliminate duplicated table logic.
- Migrated the frontend from Create React App to Vite, reducing build time by 40%, and optimized data-heavy screens through memoization and custom hooks for improved rendering performance.
- Performed end-to-end functional, UI, and API testing for Edufund's Partner Portal (Vittam), validating user flows against Figma specifications and documenting UI/UX defects to ensure pixel-accurate, regression-free releases.

Projects

Raksha Setu - Safety & Support Application
React Native | Firebase | FCM | AI | Google Maps

- Safety and emergency-support mobile app for rapid assistance requests; Top 50 Finalist from 2,000+ registrations at the Odoo x Gujarat Vidyapith Hackathon 2025.

Telemedicine Application - Rural Healthcare Access
React.js | JavaScript | HTML5 | CSS3 | Tailwind CSS | Material UI | REST APIs | Firebase

- Telemedicine platform improving rural healthcare access via video consultations and AI-generated health reports; Top 75 Finalist from 600+ registrations at Odoo x Nirman 2025, Amity University, Mumbai.

Alumni Portal - Mentorship & Networking Platform
React.js | Redux Toolkit | Vite | Bootstrap | REST API

- Portal connecting students with alumni for mentorship, job referrals, and event updates; Top 40 Finalist at Hackcelestial 1.0, Pillai College of Engineering, Panvel.

Skills

Programming Languages: Dart, JavaScript, TypeScript, SQL, HTML5, CSS3
Frameworks & Libraries: Flutter, React.js, Redux Toolkit, Riverpod, Provider, Bootstrap, Node.js
Architecture & Patterns: Clean Architecture, MVVM, Modular Monorepo (Melos), Separation of Concerns, Responsive Design
API, Auth & Data: REST API, Dio, Axios, RBAC, Secure Storage, Token Refresh, MySQL, PostgreSQL, MongoDB, Firebase
Testing & QA: Functional Testing, Manual Testing, Regression Testing, API Testing, Cross-Browser Testing
Tools & Platforms: Git, GitHub, Vite, Postman, Figma, Jira, VS Code, CI/CD, Agile / Scrum, Design Systems, i18n / l10n

Responsibilities

Graphic Designer – ACE (Association of Coders and Encoders Club): Designed posters and visuals for college events and managed creative content for student outreach.

Education

- **B.E. Information Technology** 2022-2026
  Pillai HOC College of Engineering & Technology, Rasayani
- **HSC** 2020-2022
  Dnyanpushpa Vidya Niketan School and Junior College, Belapur
- **SSC** 2020
  D.A.V. International School, Kharghar
