Projects

Raksha Setu – Women Safety & Emergency App
React Native | Firebase | FCM | AI | Google Maps

- Collaborated in a 4-member team to develop and test a safety-focused mobile application with critical real-time features
- Performed end-to-end testing of SOS alert system, live location tracking, and emergency notification features to ensure 99.9% reliability
- Conducted API testing for Firebase Cloud Messaging integration and validated geofenced notification delivery
- Tested and debugged real-time data synchronization between frontend and Firebase backend to ensure data consistency
- Validated admin dashboard functionality for managing users, guardians, and system-wide activities
- Identified and resolved critical bugs in emergency response workflows, improving response time by optimizing notification triggers
- Performed security testing on user authentication and data privacy features to ensure compliance with safety standards

Expense Tracker Wallet App
React Native | Expo | Clerk | Express.js | PostgreSQL | Redis

- Developed and tested a mobile application for tracking financial transactions with real-time balance updates
- Conducted functional testing on authentication flows including signup, login, and email verification using Clerk
- Performed API testing using Postman to validate backend endpoints built with Express.js and PostgreSQL database
- Tested rate limiting functionality implemented with Redis to ensure system stability under load
- Executed manual testing on real devices using Expo to identify UI/UX issues and ensure cross-device compatibility
- Debugged and resolved issues related to transaction management (add/delete), pull-to-refresh, and session handling
- Validated database operations and data integrity across PostgreSQL hosted on Neon platform

Skills

Testing & QA: Functional Testing, Manual Testing, Performance Testing
Programming Languages: JavaScript, Python
Frontend Development: React.js, HTML5, CSS3, Bootstrap
Mobile Development: React Native, Expo, CLI
Backend & Database: MySQL, Firebase, MongoDB, Node.js, PostgreSQL
Tools & Platforms: Git, GitHub, Postman, VS Code

Achievements & Certifications

- **Top 50 Finalist – Odoo x Gujarat Vidyapith Hackathon 2025, Gujarat Vidyapith, Gujarat (Mar 2025):** Selected among top 50 teams from 2000+ registrations for building Raksha Setu, a safety and support app.
- **Top 75 Finalist – Odoo x Nirman 2025, Amity University, Mumbai (Feb 2025):** Selected among top 75 teams from 600+ registrations for building Telemedicine App aimed at improving rural healthcare access through video consultations and AI-based health reports.
- **Top 40 Finalist – Hackcelestial 1.0, Pillai College of Engineering, Panvel (Aug 2024):** Developed an Alumni Portal to connect past and present students, enabling mentorship, job referrals, and event updates.

Education

- **B.E. Information Technology** 2022-2026
  Pillai HOC College of Engineering & Technology, Rasayani
- **HSC** 2020-2022
  Dnyanpushpa Vidya Niketan School and Junior College, Belapur
- **SSC** 2020
  D.A.V. International School, Kharghar

Responsibilities

Graphic Designer – ACE (Association of Coders and Encoders Club): Designed posters and visuals for college events and managed creative content for student outreach.
